

How Surgical Decisions Shape Lifelong Prosthetic Outcomes Post Lower Limb Amputation

Presenter: **Dr Anton G. Johannesson**
(ForMotion Clinics EMEA, Stockholm, Sweden)

Date: **02 September 2026**

“Successful prosthetic rehabilitation begins with the first surgical incision.”

- Dr Anton Johannesson

Workshop Title: How surgical decisions shape lifelong prosthetic outcomes post lower limb amputation

Presentation Highlights:

- Limb shaping and soft tissue preservation
- Contracture prevention strategies
- Prosthetic readiness following amputation
- Early rehabilitation principles
- International perspectives on multidisciplinary care

Speaker: Dr Anton G. Johannesson
(ForMotion Clinics EMEA, Stockholm, Sweden)

About the Speaker: Dr Anton G. Johannesson is a European-certified Prosthetist & Orthotist with more than three decades of clinical and research experience in lower limb amputation rehabilitation. Following graduation from the University of Jönköping in 1990, he completed a PhD in Orthopaedics at Lund University, where his research focused on lower limb amputation in patients with vascular disease. His work has contributed substantially to understanding postoperative management, prosthetic rehabilitation and functional recovery following amputation. As part of ForMotion Clinics EMEA, Dr Johannesson continues to work internationally in clinical care, education and research aimed at improving outcomes for individuals living with limb loss.

Date: Wednesday 2 September 2026
